PROFESSIONAL SUMMARY

Computer Science undergraduate at MITAOE with a strong foundation in Python, Machine Learning, Data Science, and Cybersecurity. Demonstrated academic excellence — CGPA 8.90 (Sem I) and 8.83 (Sem II) — alongside 14 industry-recognised certificates from Anthropic, Cisco, IBM, and MIT Academy. Builder of AI-powered projects including a deep learning plant-disease detector (ResNet-50) and a smart bus ETA prediction system. NDA-cleared three times, reflecting discipline and high performance under pressure.

EDUCATION

2025 – Present

Bachelor of Technology (BTech) — Computer Science

MIT Academy of Engineering (MITAOE), Pune

- Semester I CGPA: 8.90 / 10
- Semester II CGPA: 8.83 / 10

2024 – 2025

12th Standard — Science (PCM)

Global Public School & Jr College, Nashik

- 96.6 Percentile in MHT-CET (PCM) | 99.46 Percentile in Mathematics
- Cleared NDA (UPSC) — Three Times (2024–2026)

2022 – 2023

10th Standard (SSC)

Chhatrapati Shivaji Vidyalyaya, Ganore — Rayat Shikshan Sanstha, Satara

- 91.8% — 3rd Rank in School
- MSCIT Certification (2023) — 97%

2020 – 2021

Scholarship Examinations — 8th Standard

- Secured scholarships under NMMS and State Scholarship Exam Schemes

TECHNICAL SKILLS

Languages:	Python, C Programming
Web:	HTML5, CSS3, Responsive Design
Data & AI:	Data Analysis, Data Visualization, Machine Learning (ResNet-50, PyTorch)
Security:	Cybersecurity Fundamentals, Network Security, Threat Management
Tools & OS:	Linux (CLI & Administration), Flask, Git, GitHub
Soft Skills:	Problem Solving, Technical Communication, Presentation & Public Speaking

PROJECTS

CropScan AI – Plant Disease Detection System

Deep Learning · Computer Vision · PyTorch · Flask · Python

github.com/omshivchikadam26-creator/CropScan-AI

AI-powered web application that detects plant diseases from uploaded leaf images using a fine-tuned ResNet-50 deep learning model trained on the PlantVillage dataset. Implemented advanced training techniques — data augmentation, label smoothing, and early stopping — to improve classification accuracy and generalisation.

Smart Bus Tracking & ETA Prediction System (Prototype)

Machine Learning · GPS Tracking · ETA Prediction · Data Analysis · Web Development

Web-based public transportation platform providing real-time bus tracking, route information, and ML-powered arrival-time predictions. Integrated a model that analyses historical traffic data and travel patterns to improve commuting efficiency.

Personal Portfolio Website

HTML · CSS · Responsive Design · JavaScript

omshivchikadam26-creator.github.io/portfolio

Responsive multi-page portfolio website showcasing academic achievements, projects, and 14 professional certificates. Built with vanilla HTML/CSS featuring a sticky nav, scroll-reveal animations, and certificate filter tabs.

Smart Accident Detection & Emergency Alert System (Prototype)

IoT · Sensors · Hardware Integration

IoT-based safety system that detects vehicle accidents and automatically triggers emergency alerts to reduce response times.

CERTIFICATIONS (14 VERIFIED)

AI & Machine Learning

- Claude 101 — Anthropic
- AI Fluency: Framework & Foundation — Anthropic
- AI Fluency for Students — Anthropic
- AI Fluency for Nonprofits — Anthropic
- Apply AI: Analyze Customer Reviews — Cisco Networking Academy
- Introduction to Modern AI — MIT Academy of Engineering

Python & Data Science

- Python Essentials 1 — Cisco Networking Academy
- Python Essentials 2 — Cisco Networking Academy
- Data Science Essentials with Python — MIT Academy of Engineering
- Data Analytics Essentials — MIT Academy of Engineering
- The Importance of Data Visualization — IBM SkillsBuild

Cybersecurity

- Introduction to Cybersecurity — Cisco Networking Academy
- Cyber Threat Management — MIT Academy of Engineering

Membership

- Official Membership Certificate — Society for Data Science (S4DS)
